Re: 2010 (Newsletter)

Below are the following maintenance items that will be performed over the first quarter of this year:

- General maintenance will continue on a day to day basis.
- The first turf "pre-emergent" application will be applied in February.
- The second turf "pre-emergent" application will be applied in April.
- A fresh application of mulch will be applied starting in February and continuing into March for both residential and commercial properties.
- Sprinkler systems will be evaluated/started-up in late March and early April.

Thanks!
